PCIQ Enterprise Learning: Content Development Services

About PCIQ Content Development

PCIQ Enterprise Learning helps businesses author and deliver engaging learning materials supporting a variety of learning styles.

Our instructional designers tailor content development materials to the needs of the organization and design each solution around proven learning principles. This ensures that your learners gain the necessary knowledge and skills required to enhance overall performance.

Benefits To Content Development

- Continuity of training by developing all materials as a suite
- Ability to design course materials for classroom or electronic delivery
- Training programs can be delivered across the Internet, an Intranet, on a CD-Rom, within your LMS, or in the classroom
- Materials can be created that instruct on the very technology the learner will use
- Programs can be categorized by job role, department, application or all three

Delivery Methods

- Computer Based or CD-Rom
- Internet or Intranet
- Learning Management System (LMS)
- Classroom or Instructor-led Training
- Technical Documentation

Cost Savings

- Projects can be built to work within your training budget
- Materials can be designed to any level of complexity necessary to meet the needs of the learner while staying within budgetary constraints
- Learning tools can be used over and over again with little to no cost
